

SANIPACKING

DRIFT ELIMINATOR

In addition to the advantages and properties of polypropilene, the exclusive **SANIPACKING®** treatment provides the following advantages:

- Prevents the growth of legionella and other bacteria on its surface.
- It almost totally inhibits *Pseudomonas aeruginosa*, the most important component of the biofilm in most industrial water systems.
- Long duration. Resistant to washing. Maintains its effectiveness for at least three to five years, under normal conditions.
- It does not contain heavy metals or arsenic.
